PRIMARY EXAMINER

Art Unit: 2816

1. The following is an examiner's statement of reasons for allowance: the amendment filed 10/6/2005 has overcome the technical deficiencies and the prior art of record. The prior art of record, in particular Fruhauf et al. (USP 5,291,139), fails to teach or fairly suggest the reference voltage being between a fuse detection voltage corresponding to an un-blown state of the fuse under detection and a fuse detection voltage corresponding to a blown state of the fuse under detection, thereby distinguish the blown state from the un-blown state as called for in claims 1, 10, 13, 18 and 20. Therefore, claims 1-22 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).
